This plan is based upon the guidance of the California Department of Public Health (CDPH), San Mateo County Health (SMCH), Centers for Disease Control and Prevention (CDC), and Cal/OSHA as presented in the **Pandemic Recovery Framework**.
Burlingame School District prioritizes the safety of its students and staff. This plan lays out the Burlingame School District COVID-19 safety plan for the 2021-22 school year and reflects CDPH, CDC, and Cal/OSHA guidance. Given the continually evolving situation with COVID-19, we can expect public health guidance will be updated throughout the school year. Burlingame will update its practices to align with this guidance while protecting the health and safety of our students and staff.

**Vaccination**

Vaccination is an important strategy to protect students, staff, and community members. Most of Burlingame School District’s school staff and students who are eligible are vaccinated. Burlingame School District will work to support those who are unvaccinated to learn more about the vaccine and the benefits of vaccination. Steps will be taken to protect those who are not vaccinated.

Per CDPH guidance, Burlingame School District will verify the vaccination status of all workers, including all paid and unpaid adults serving in the school setting. Verification of vaccination status is an important tool for use in determining the need for testing, contact tracing, quarantine, and isolation.

Vaccination status will be documented with proof of vaccination or with a completed and signed **self-certification of COVID-19 vaccination status**.

According to the CDPH, only the following modes may be used as proof of vaccination:

- COVID-19 Vaccination Record Card (issued by the Department of Health and Human Services Centers for Disease Control & Prevention or WHO Yellow Card) which includes name of the person vaccinated, type of vaccine provided and date last dose administered; or
- a photo of a Vaccination Record Card as a separate document; or
- a photo of the client’s Vaccination Record Card stored on a phone or electronic device; or
- documentation of COVID-19 vaccination from a health care provider; or
- A digital record that includes a QR code that when scanned by a SMART Health Card reader displays to the reader client name, date of birth, vaccine dates, and vaccine type; or
- documentation of vaccination from other contracted employers who follow these vaccination records guidelines and standards.
- Self-certification is allowed.

Burlingame School District will use the same protocols that are used to collect and secure other immunization or health status information from students. These protocols comply with relevant statutory and regulatory requirements, including Family Educational Rights and Privacy Act (FERPA) statutory and regulatory requirements.

If a student or staff member is unable or unwilling to share their vaccination status, they will be treated as **not vaccinated** for all purposes of this plan.

Burlingame School District recognizes that an employee who cannot get vaccinated due to a disability (covered by the ADA), has a disability that affects their ability to have a full immune response to vaccination, or has a sincerely held religious belief or practice (covered by Title VII of the Civil Rights Act of 1964), may be entitled to a reasonable accommodation that does not pose an undue hardship on the operation of the employer’s business.
Masks
Per the San Mateo County Health Officer’s order, Burlingame School District will require universal masking inside schools and will additionally require masking outside on all campuses. The following summarizes Burlingame School District’s masking policies:

- All students are required to mask at any time on campus, indoors and outdoors, except those who are exempt based on CDPH face mask guidance. Exemptions include:
  - Persons younger than two years old.
  - Persons with a medical condition, mental health condition, or disability that prevents wearing a mask. This includes persons with a medical condition for whom wearing a mask could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a mask without assistance.
  - For persons who are hearing impaired, or when communicating with a person who is hearing impaired, the ability to see the mouth is essential for communication.
  - Persons for whom wearing a mask would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines.
  - Persons who are actively eating and/or drinking.

- All adults are required to wear a mask at all times on campus unless actively eating or drinking and should continue to eat and drink separately to avoid potential contamination or spread of illness.

- Staff and other adults exempted from wearing a mask due to a medical condition must wear a non-restrictive alternative, such as a face shield with a drape on the bottom edge, as long as their condition permits it.

- Burlingame School District will provide a mask to students who fail to bring one.

- Burlingame School District will work with students who are not exempt from masking requirements to help them meet the requirement. If needed, Burlingame School District will consult with parents for assistance. If a student is not exempt and continues to refuse to wear a mask, Burlingame School District will offer alternative educational opportunities for those students.

- If a mask cannot be used for pedagogical or developmental reasons, (e.g., communicating or assisting young children or those with special needs) a face shield with a drape (per CDPH guidelines) can be used instead of a mask while in the classroom as long as the wearer maintains physical distance from others. Staff must return to wearing a mask outside of the classroom.

- Masks are mandatory outdoors.

- All passengers and drivers must wear a mask on school buses and other forms of student transportation except when exempt from CDPH face mask guidance.

- Burlingame School District will provide masks to those students on school buses who may need them.

- Even when not required, staff may elect to wear a mask.

- In outbreaks, all employees must wear masks indoors and outdoors when six-feet physical distancing cannot be maintained, regardless of vaccination status.
Physical Distancing

The CDPH does not include any recommendations concerning physical distancing in schools and reports that, “Recent evidence indicates that in-person instruction can occur safely without minimum physical distancing requirements when other mitigation strategies (e.g., masking) are implemented.”

Burlingame School District will maximize physical distance as much as possible when students and staff are eating indoors. Burlingame School District will also arrange for students and staff to eat outdoors as much as feasible.

If students are unable to wear masks, Burlingame School District will promote physical distancing as an alternative safety measure when feasible.

Gatherings

Although CDPH does not address gatherings in its guidance, Burlingame School District will consider all of the following when organizing meetings and events: limit the size of indoor gatherings, increase distance among participants, and maintain masking requirements. Even if events are outdoors and participants are vaccinated, Burlingame School District will consider these adjustments when planning meetings and events.

Ventilation

Quality HVAC system design, operation, and maintenance are critical for providing clean and healthy Indoor Air Quality (IAQ) in schools. In addition to improving occupant health and performance, regular HVAC maintenance saves energy.

- Air filters at Burlingame School District school sites have been upgraded to MERV 13 or better. They are properly installed (i.e., no gaps that would allow air to bypass the filter) and properly maintained.
- Burlingame School District will monitor ventilation systems.
- Interior doors and ceiling fans may remain open/running at discretion of teacher/staff member but such is encouraged to increase airflow
- Outdoor windows and doors will be open as weather allows.
- Bus drivers will open or crack windows if doing so does not pose a safety risk.
- Staff may use exhaust fans in restrooms and kitchens.
- When experiencing unhealthy air quality typically associated with wildfires, the school sites will implement the Big Five Shelter in Place Protocol, which includes:
  - Keeping doors and windows shut.
○ Holding outdoor classes and meals inside.
○ Setting the central system’s circulating fan to operate continuously.
○ Burlingame School District administrations will monitor air quality.

● If needed, Burlingame School District will consider dismissing students and moving to distance learning until air quality improves and proper ventilation on indoor classrooms/common areas can resume.

Stay Home When Sick and Get Tested

CDPH does not recommend that schools use screening questions before students or staff attend school. Instead, the focus is on reminding staff and families that those who are not feeling well should stay home. The CDPH notes that getting tested for COVID-19 when symptoms are consistent with COVID-19 will help with rapid contact tracing and prevent the possible spread at schools. CDPH recommends that staff members and students with symptoms of COVID-19 infection not return for in-person instruction until they have met these criteria:

● At least 24 hours have passed since the resolution of fever without the use of fever-reducing medications; and
● Other symptoms have improved; and
● They have a negative COVID-19 test, OR a healthcare provider has provided documentation that the symptoms are typical of their underlying chronic condition (e.g., allergies or asthma) OR a healthcare provider has confirmed an alternative named diagnosis (e.g., Streptococcal pharyngitis, Coxsackie virus), OR at least 10 days have passed since symptom onset.

Students, teachers, and staff who have symptoms of infectious illness, such as influenza (flu) or COVID-19, should stay home and be referred to their healthcare provider for testing and care.

Staff should contact their Principal if they are experiencing any common symptoms of COVID-19 or are not feeling well. Parents and guardians should contact their child’s Principal if their student is not feeling well.

Burlingame School District staff will remind parents and guardians to keep children home if they are showing signs and symptoms of COVID-19 and get them tested.
When Students or Staff Are Sick at School

When a student or staff member is sick while on campus, Burlingame School District staff must escort the person to a safe place and provide a COVID-19 test, if available. If not, the student or staff member will need to leave campus and seek a test from their healthcare provider or a community testing site.

If the student or staff member tests positive for COVID-19, they will be directed to contact their healthcare provider for follow-up response and monitoring.

If the student or staff member tests negative for COVID-19, they may return to school following the school’s health policies, which is usually 24 hours after a fever subsides without the use of medication and symptoms have improved.

Hand Hygiene

Promoting and making time for handwashing is a CDPH-recommended safety layer. As appropriate and feasible:

- Staff will provide students with training on proper handwashing techniques.
- Students will wash hands and use hand sanitizer throughout the day, including during bathroom breaks, lunchtime, and before and after PE.
- When possible staff will provide students with time in the classroom for handwashing; in classrooms without sinks, students will leave the classroom for handwashing.
- Hand sanitizer and hand sanitizer stations are available on all school sites.
- Burlingame School District will also ensure adequate supplies to support healthy hygiene behaviors, including soap, tissues, no-touch trash cans, masks, and hand

sanitizers with at least 60 percent ethyl alcohol for staff and children who can safely use hand sanitizer.

- Hand sanitizers will be stored up, away, and out of sight of young children and should be used only with adult supervision for children under 6 years of age.

**Cleaning and Disinfection**

- Burlingame School District has cleaning and disinfection protocols and will continue to implement them as they would before the pandemic.
- Per CDPH COVID-19 guidance, cleaning once a day is usually enough to sufficiently remove potential viruses that may be on surfaces.
- If a facility has had a sick person with COVID-19 within the last 24 hours, clean AND disinfect the spaces occupied by that person during that time.

**Food and Meals**

- Burlingame School District will arrange for students and staff to eat outdoors as much as feasible. Burlingame School District will maximize physical distance as much as possible when students and staff are eating indoors.
- Custodial staff will clean frequently touched surfaces. Surfaces that come in contact with food should be washed, rinsed, and sanitized before and after meals.
- Given the very low risk of transmission from surfaces and shared objects, there is no need to limit food service approaches to single-use items and packaged meals.

**Visitors**

Burlingame School District has adopted the CDPH’s recommendations for visitors to campus and has developed a visitor policy, which can be found here. [Provide link to visitor policy or include here. If a plan has been developed, make sure it follows these guidelines and then replace the following text with the School/District plan or a link to it.] Burlingame School District requires that all volunteers who are onsite at a school campus verify their vaccination status.

- Burlingame School District will limit nonessential visitors, volunteers, and activities involving external groups or organizations with people who are not fully vaccinated, particularly when there is moderate-to-high COVID-19 community transmission.
- Burlingame School District will not limit access for direct service providers but can ensure compliance with school visitor policies.
- Anyone, including visitors, who have symptoms of infectious illness, such as flu or COVID-19, should stay home and seek testing and care.
● All visitors are required to wear masks while indoors and outdoors on campus unless exempt.
● Burlingame School District will implement measures to communicate to non-employees the mask requirements on their premises.
● Burlingame School District may request that visitors provide proof of vaccination status before entering campus. If visitors are not vaccinated or refuse or are unable to provide this information, they must follow all school policies related to not vaccinated individuals.

**Volunteers**

Burlingame School District has adopted the CDPH’s recommendations for volunteers to campus and has developed a volunteer policy outlined below. Burlingame School District requires that all volunteers who are onsite at a school campus verify their vaccination status prior to being on campus.

● Burlingame School District will limit nonessential volunteers involving external groups or organizations with people who are not fully vaccinated, particularly when there is moderate-to-high COVID-19 community transmission.
● Burlingame School District will not limit access for direct service providers but can ensure compliance with school visitor policies.
● Any volunteer who has symptoms of infectious illness, such as flu or COVID-19, should stay home and seek testing and care.
● All volunteers are required to wear masks while indoors and outdoors on campus unless exempt. The exemption should be on file with the Burlingame School District prior to volunteering.
● Burlingame School District will implement measures to communicate to non-employees the mask requirements on their premises.
● Burlingame School District may request that volunteers provide proof of vaccination status before entering campus. If volunteers are not vaccinated or refuse or are unable to provide this information, they must follow all school policies related to not vaccinated individuals which included weekly COVID testing.

**Travel**

Please see the table below for CDC recommendations and requirements concerning travel. Schools may also want to share the CDPH’s [flyer concerning travel](https://www.cdc.gov) with families and staff.

Screening Testing
[Add School/District protocols here. See PRF pages 17-20 for guidance.]

Response Testing and Quarantine

Definitions

Fully vaccinated: two weeks have passed since individual received their final dose of COVID-19 vaccine.

Close Contact: anyone who was within 0–6 feet of a Case for more than 15 minutes over a 24-hour period.

Testing and Quarantine of Vaccinated Close Contacts
Burlingame School District will follow the CDPH’s guidance for schools on response testing and quarantine, which include the following:

- Fully vaccinated people should get tested if experiencing **COVID-19 symptoms**.
- If fully vaccinated people test positive for COVID-19, they should follow CDPH and local health department guidance regarding isolation and/or exclusion from high-risk settings.
- Fully vaccinated students, teachers, and staff with no COVID-19 symptoms do not need to be tested following exposure to someone with COVID-19.
- Following a known exposure at work, fully vaccinated workers do not need to quarantine if asymptomatic.
- Per Cal/OSHA, fully vaccinated employees do not need to be offered testing or excluded from work after close contact unless they have COVID-19 symptoms.
- The CDC recommends that fully vaccinated people who have a known exposure to someone with suspected or confirmed COVID-19 be tested 3-5 days after exposure and to wear a mask in public indoor settings for 14 days or until they receive a negative test result.

**Testing of Those Who Previously Had COVID-19**

People who have tested positive for COVID-19 within the past three months and recovered do not need to get tested following an exposure as long as they do not develop new symptoms.

**Testing and Quarantine of Unvaccinated Close Contacts**

**When All Parties Were Wearing a Mask**

When both parties were wearing a mask in an indoor or outdoor school setting or school bus, **students** who are unvaccinated and are close contacts may undergo a modified 10-day quarantine and continue to attend school for in-person instruction if they:

- Are asymptomatic;
- Continue to appropriately mask, as required;
- Undergo at least twice weekly testing during the 10-day quarantine; and
- Continue to quarantine for all extracurricular activities at school, including sports, and activities within the community setting.

CDPH provides the following testing guidance for students in modified quarantine.

- Testing should begin immediately after being exposed to someone with COVID-19. Subsequent testing should occur at least 3 days apart.
- Quarantine can end after Day 7 if a diagnostic specimen is collected after Day 5 from the date of last exposure and tests negative.

According to CDPH, students in modified quarantine:

- Are strongly encouraged to wear masks when outdoors.
• May use school buses, including buses operated by public and private school systems.
• May participate in all required instructional components of the school day, except activities where a mask cannot be worn, such as while playing certain musical instruments.
• May eat meals on campus using foodservice recommendations provided in this plan.

Please note: Modified quarantine does not apply to teachers or other adults.

When One Party Was Not Wearing a Mask

When one party was not wearing a mask, those who remain asymptomatic may discontinue self-quarantine under the following conditions:

• Quarantine can end after Day 10 from the date of last exposure without testing; OR
• Quarantine can end after Day 7 if a diagnostic specimen is collected after Day 5 from the date of last exposure and tests negative.
• To discontinue quarantine before 14 days following last known exposure, asymptomatic close contacts must:
  ○ Continue daily self-monitoring for symptoms through Day 14 from last known exposure; AND
  ○ Follow all recommended non-pharmaceutical interventions (e.g., wearing a mask when around others, hand washing, avoiding crowds) through Day 14 from last known exposure.

If any symptoms develop during this 14-day period, the exposed person must immediately isolate, get tested, and contact their healthcare provider with any questions regarding their care.

Additional Requirements Concerning Employees Who Are Not Vaccinated

Per Cal/OSHA, Burlingame School District must:

• Exclude employees who have COVID-19 symptoms and/or are not fully vaccinated and have had close contact from the workplace and, if that close contact is work-related, then the employee should contact Human Resources regarding potential worker’s compensation.
• Offer COVID-19 testing at no cost during paid time to their employees who are not fully vaccinated and had potential exposure to COVID-19 in the workplace, and provide them with information on benefits.

Tests to Assess Status during Quarantine or to Exit Quarantine

• Any FDA-approved diagnostic test is acceptable for evaluation of an individual’s COVID-19 status. This includes antigen diagnostic tests and PCR diagnostic tests. PCR tests are preferred, but not required. See the CDPH school testing resources for more information.
Collection of diagnostic specimens for asymptomatic persons during quarantine may occur in schools, healthcare settings, or other locations supervised by school or healthcare personnel. Specimens may be processed at the point-of-care (POC) or in a laboratory.

At this time, at-home testing is not recommended for evaluation of an individual’s status during quarantine.

For persons in quarantine who experience symptoms, a negative result from an antigen test or POC molecular test results should be confirmed with a laboratory-based PCR test.
COVID-19 Exposure at School (CDPH)

**Vaccinated Close Contacts**

- [Symptomatic](#) 
  - Isolate:
    - per condition diagnosed by healthcare provider or
    - until at least 24 hours have passed since the last fever without the use of fever-reducing medication and
    - symptoms have improved
  - [Get Tested](#) 
  - [Asymptomatic](#) 
    - No need for quarantine
    - No need for testing
    - Monitor for symptoms

**Unvaccinated Close Contacts**

- [Symptomatic](#) 
  - Isolate until:
    - at least 10 days have passed since symptoms first appeared and
    - at least 24 hours have passed since the last fever without the use of fever-reducing medication and
    - symptoms have improved
  - [Get Tested](#) 
  - [Asymptomatic](#) 
    - Both Parties Masked
    - [YES](#) 
      - Student
      - Staff
      - Modified Quarantine (if both parties were masked)
        - When all parties were wearing a mask in the school setting (indoors or outdoors), unvaccinated students who are close contacts (more than 15 minutes over a 24-hour period within 0-6 feet)
        - May continue to attend school for in-person instruction if they:
          - Are asymptomatic;
          - Continue to appropriately mask, as required;
          - Undergo at least twice-weekly testing during the 10-day quarantine; and
          - Continue to quarantine for all extracurricular activities at school, including sports, and activities within the community setting.
    - [NO](#) 
      - Quarantine (if one or more parties were unmasked)
        - Exposed asymptomatic people can shorten their quarantine from 10 days to 7, however, they must continue to monitor symptoms for 14 days after exposure. If any symptoms develop in the next 14 days, the exposed person must immediately isolate, get tested, and contact their healthcare provider with any questions regarding their care.

- [End Quarantine After Day 7](#) 
  - For those who remain asymptomatic:
    - After Day 5, get a COVID-19 test that shows a result of negative; and
    - Continue daily self-monitoring for symptoms through Day 14 from last known exposure; and
    - Follow all recommended non-pharmaceutical interventions (e.g., wearing a mask when around others, hand washing, avoiding crowds) through Day 14 from last known exposure.
  - [End Quarantine After Day 10](#) 
    - For those who remain asymptomatic:
      - Continue daily self-monitoring for symptoms through Day 14 from last known exposure; and
      - Follow all recommended non-pharmaceutical interventions (e.g., wearing a mask when around others, hand washing, avoiding crowds) through Day 14 from last known exposure.
      - Exposed asymptomatic people may end quarantine after Day 10 without a test.
Case Reporting and Contact Tracing

The COVID-19 Point Person for all staff is District Nurse, and Alison Bell, HR Specialist, will serve as the designated alternate. The COVID-19 Point Person for all students is Principal, and District Nurse, will serve as the designated alternate. All school staff and families will be informed of the designated staff person and how to contact them.

Burlingame School District staff will follow this protocol where there are one or more confirmed cases of COVID-19 in the school community:

- The Burlingame School District COVID-19 Point Person must report all COVID-19 cases and clusters of undiagnosed respiratory illness to SMC CD Control as soon as practicable (within 24 hours) at COVID19_SchoolTeam@smcgov.org.
- The School COVID-19 Point Person will immediately notify Burlingame School District's Point Person of COVID-19 cases in the school community.
- The School COVID-19 Point Person and the assigned San Mateo County Health investigator will be in daily contact Monday – Friday, unless instructed otherwise by SMC CD Control.
- The School COVID-19 Point Person will collect data from all schools and must complete a daily report for all new cases (a line list) and submit it via secure email daily by 10:00 a.m.
- The Burlingame School District COVID-19 Point Person will notify the Superintendent.
- The School COVID-19 Point Person will notify the school community using template letters provided in the Pandemic Recovery Framework.

Burlingame School District will comply with the notice obligations set out in SB 586, ensuring that staff and families will receive prompt notifications of exposures and closures, while also maintaining confidentiality.

School staff will receive training regarding COVID-19 reporting protocols in the event they receive a positive test result.

Burlingame School District will maintain accurate records and track all COVID-19 cases while ensuring medical information remains confidential. These records must be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

Per Cal/OSHA guidance, Burlingame School District will provide written notice within one day of learning of a case to people at the school site who may have been exposed to COVID-19.

Outbreaks

In the case of an outbreak, Burlingame School District will follow these protocols:
• Provide written notice of a school site outbreak (three or more cases in an exposed workgroup in a 14-day period) and major outbreaks (20 or more cases within a 30-day period).
• During any outbreak, masks are required regardless of employee vaccination status both indoors and outdoors when employees are less than six feet from another person.
• During major outbreaks, six-feet physical distancing is required where feasible, both indoors and outdoors.
